Taming inflationary expectations

- ❑ The official inflation rate dipped to 1.5% last month lowest in almost two decades.
- ❑ Inflation is a politically more sensitive challenge than joblessness for the simple reason that it affects everyone, whether you have a job or not.
- ❑ India's long-term record in managing inflation has been very impressive when compared with most developing countries.
- ❑ We have never had the bouts of hyperinflation experienced in many Latin American economies or seen even in countries such as Israel.
- ❑ Controlling money supply is part of the strategy for controlling inflation
- ❑ Inflation is also an indicator of whether there is an excess demand or supply of goods.
- ❑ Price stability is an important goal of government policy, it is now an exclusive mandate given to the Reserve Bank of India (RBI)

- ❑ Last year, in a landmark reform of monetary management, the government officially gave an inflation target to the RBI.
- ❑ Prior to this, the central bank had multiple objectives which included
 - ❑ 1)-Enhancing growth and
 - ❑ 2)-Reducing unemployment,
 - ❑ 3)-Although price stability was undoubtedly paramount.
- ❑ The new paradigm, called the “flexible inflation targeting” framework, aims for a numerical target given by the government.
- ❑ The main tool to achieve it is by setting the benchmark interest rate.
- ❑ Six-member monetary policy committee (MPC), chaired by the Governor.
- ❑ The current inflation target is 4% plus or minus 2%.
- ❑ The MPC is deemed to have failed if for three consecutive quarters the inflation rate falls outside the band.
- ❑ All eyes will now be on the MPC which meets again in less than two weeks

- ❑ There is a strong feeling that high interest rates have deterred big industrial investments, or housing finance.
- ❑ India's real interest rates are quite high even compared to other developing countries
- ❑ Sweden, Switzerland and Japan even having negative interest rates.
- ❑ India needs much lower rates for higher GDP growth.
- ❑ But the job of the MPC won't be easy-
- ❑ 1)- Goods and Services Tax (GST)
- ❑ 2)- Farmer loan waivers
- ❑ 3)- 7th pay commission
- ❑ 4)- Commodity prices worldwide as metals and food prices
- ❑ In English the verb for inflation- refers to rising prices.
- ❑ But in most Indian languages, the equivalent word in usage is “mehengaai”, which refers to affordability and cost of living.

- ❑ Data visualisation has made journalism more objective
- ❑ Data journalism has three separate processes.
- ❑ 1)-The first is data sourcing and preparation.
- ❑ 2)-Next step in data journalism is analysing the data
- ❑ 3)-third part in data journalism is data visualisation- like fusion tables, chart and the D3 (dynamic document design).
